# WHAT'S YOUR CAR WORTH?

# INTRODUCTION

\* **Problem:**

- **Buying and selling a used car can be tricky**

\* **Goal:**

- **A web application provides a predicted used car value based on its features**

# DATA

\* Data from [Cars.com](#)

\* 75,253 listings of car information

Basics	
Exterior color	White
Interior color	Black
Drivetrain	Front-wheel Drive
MPG	54–50 ⓘ
Fuel type	Hybrid
Transmission	Automatic CVT
Engine	1.8L I4 16V MPFI DOHC Hybrid
VIN	JTDKARFU7J3055940
Stock #	055940
Mileage	28,246 mi.
Vehicle history	<a href="#">CARFAX Report ↗</a>

Features	
Convenience	Adaptive Cruise Control Heated Seats Keyless Start Navigation System
Entertainment	Bluetooth USB Port
Safety	Automatic Emergency Braking Backup Camera Brake Assist Lane Departure Warning Rear Cross Traffic Alert Stability Control

Used

2018 Toyota Prius Two

28,246 mi.

\$18,999

↑ Great Deal | \$2,863 under

Virtual Appointments

Save

Video

The image shows a white Toyota Prius Two hybrid car parked in a parking lot. The car is shown from a front-three-quarter angle. Below the main image is a horizontal strip showing five smaller thumbnail images of the car from different angles, followed by a play button icon and the word "Video". To the right of the main image, there is descriptive text about the car's condition ("Used"), model ("2018 Toyota Prius Two"), mileage ("28,246 mi."), and price ("\$18,999"). At the bottom, there are two buttons: "Great Deal" with a note about the price being under \$2,863, and "Virtual Appointments".

---

# CONCLUSION & FUTURE WORK

- \* **Users can have a better understanding on their cars' sale prices**
  - \* **Change some application features to drop box with options**
  - \* **Automate compy.py with Cron**
  - \* **Deploy application with Heroku**
-

---

**THANK YOU!**
